

## The 2300 Day Vision / Daniel 8

Confirming the Identity of the AC / 1035 Days before the Start of the Great Tribulation

This 2300 day vision identifies three significant steps:

1. It begins with the AC casting down “host of the stars” [Daniel 8:10](#) (This casting down of the “host of the stars” happens prior to the “daily sacrifices” being taken away).
2. Next, the “daily sacrifices” are “taken away” (which is the start of the 1260 days of the GT) [Daniel 8:11](#)
3. ....and concludes with the sanctuary being “cleansed” [Daniel 8:14](#) (which occurs at Christ’s advent).

In review, the downing of the “host of the stars” takes place prior to the start of the GT; specifically, 2300 days before the advent of Christ. This downing of the “host of the stars” provides us with four valuable pieces of information:

- A. It occurs 2300 days before the advent of Christ.
- B. It occurs 1035 days before the start of the Great Tribulation
- C. It confirms the start of the Tribulation period.
- D. It confirms the identity of the AC.
